Our Mission:

To Make Disciples of Jesus Christ for the Transformation of the World

Volume 3, Issue 216
JUNE 11, 2025

After the celebration of the Easter Season and Pentecost, the Christian calendar calls the stretch of time through the summer months “ordinary time.” Ordinary time doesn’t sound exciting. But actually ordinary times are those times when we continue our regular pattern of worshipping God every Sunday, studying and learning together, ministering to our community, and preparing for next Fall and a new ministry year.

During this time we are sharing in exciting ministries like Vacation Bible School which begins on June 17th. We are studying the United Methodist Social Principles and learning more about what it means to balance personal and social holiness. The Garden Ministry is in full swing and seeking regular volunteers as the plants grow and thrive.

Sunday evening there was a well attended special piano concert on the Pleyel piano with numerous duets and, an amazing concluding piece where eight (yes eight!) pianists played the double piano together.

The calendar may call this “Ordinary Time”, but there is nothing ordinary about the ministry that we get to be a part of at Asbury UMC each week!

As we move through this summer season with its many opportunities, I hope you will make Sunday Worship and the ministries of the church an important priority in your summer schedule.

In Christ's Service Together,
Pastor Tim

Bits and Pieces from Your Parish Nurse Team - JUNE IS ALZHEIMER'S AWARENESS MONTH!

June is Alzheimer's Awareness Month. Please check out the Parish Nurse Display Board near the church office to pick up some helpful information! Here are a few things to know:

It may be hard to know the difference between age-related changes and the first signs of Alzheimer's disease. Ask yourself: Is this something new? For example, if the person was never good at balancing a checkbook, struggling with this task is probably not a warning sign. But if their ability to balance a checkbook has changed a lot, it is something to share with a doctor.

Some people may recognize changes in themselves before anyone else notices. Other times, friends and family will be the first to observe changes in the person's memory, behavior, or abilities. To help, the Alzheimer's Association has created this list of warning signs for Alzheimer's disease and related dementias. Individuals may experience one or more of these in different degrees. If you notice any of them, please see a doctor.

1. Memory changes that disrupt daily life.
2. Challenges in planning or solving problems.
3. Difficulty completing familiar tasks.
4. Confusion with time or place.
5. Trouble understanding visual images and spatial relationships.
6. New problems with words in speaking or writing.
7. Misplacing things and losing the ability to retrace steps.
8. Decreased or poor judgment
9. Withdrawal from work or social activities.
10. Changes in mood and personality.

Please take care of yourself & each other,
Carol and Cheryl
